

**Topics of the qualification thesis for 2018-2019 study year
for the part-time students OPP Laboratory Diagnostics, performed
at the Department of Anatomy and Physiology of Humans and Animals**

1. Morphofunctional features of the course of spermatogenesis in normal and in conditions of pathology.

Student: Balaniuk Roksolana Romanivna

Supervisor: PhD. Biol. Sci., senior teacher Dolyenko N.P.

2. Causes of development, manifestations and laboratory diagnostics of posthemorrhagic, iron-deficiency and B₁₂ anemias.

Student: Baliuk Nadiia Ihorivna

Supervisor: PhD Med. Sci., Assoc. Prof. Ivasiuk I. J.

3. Structural and functional changes in the uterus caused by age, their cytohistological and laboratory diagnostics.

Student: Boiko Halyna Vasylivna

Supervisor: PhD. Biol. Sci., Assoc. Prof. Glodan O.J.

4. Manifestations and laboratory diagnostics of inflammations of female genital organs of non-specific etiology.

Student: Boiko Khrystyna Ivanivna

Supervisor: PhD Med. Sci., Assoc. Prof. Ivasiuk I. J.

5. Causes of development, manifestations and laboratory diagnostics of diseases caused by flatworms.

Student: Vepryk Yelyzaveta Mykhailivna

Supervisor: Dr. Med. Sci., Professor Grytsuliak B.V.

6. Structural and functional characteristic of the locomotor system of children of different ages in norm and in case of disturbance of posture.

Student: Vynnyk Liudmyla Ihorivna

Supervisor: PhD Med. Sci., Assoc. Prof. Ivasiuk I. J.

7. Manifestations of structural and functional changes in the liver caused by viral hepatitis and their laboratory diagnostics.

Student: Vladimirova Oksana Tarasivna

Supervisor: Dr. Med. Sci., Professor Grytsuliak B.V.

8. Varicocele, causes of development, manifestations and laboratory diagnostics of ejaculate.

Student: Havrylko Tetiana Mykolaivna

Supervisor: PhD Biol. Sci., Assoc. Prof. Sluchik I.J.

9. Cytohistological changes of prostate gland caused by ethanol intoxication. Laboratory diagnostics.

Student: Hnatiuk Olha Viktorivna

Supervisor: PhD. Biol. Sci., senior teacher Dolyenko N.P.

10. Laboratory and differential diagnostics of erythrocytes in norm and in pathology.

Student: Holynska Iryna Stepanivna

Supervisor: PhD. Biol. Sci., senior teacher Dolyenko N.P.

11. Pancreas. Cytohistological features of the structure and functions in people at the certain stages of development.

Student: Hryniv Mariia Viktorivna

Supervisor: Dr. Med. Sci., Professor Grytsuliak B.V.

12. Ways of infection, manifestations and laboratory diagnosis of syphilis.

Student: Hrynychak Mariana Mykhailivna

Supervisor: PhD Med. Sci., Assoc. Prof. Ivasiuk I. J.

13. Chronic leukemia. Causes of development, manifestations and laboratory diagnostics in people of different ages.

Student: Humeniuk Dariia Mykolaivna

Supervisor: PhD. Biol. Sci., Assoc. Prof. Glodan O.J.

14. The condition of immunity and its diagnostics in people of different ages and laboratory diagnostics.

Student: Dzeba Vita Viktorivna

Supervisor: PhD. Biol. Sci., senior teacher Dolyenko N.P.

15. Structural and functional changes in organs and tissues at the radiation sickness and their laboratory diagnostics.

Student: Dovhanych Khrystyna Mykhailivna

Supervisor: Dr. Med. Sci., Professor Grytsuliak B.V.

16. Thyroid gland. Cytohistological and functional changes in norm and pathology.

Student: Zakharko Viktoriia Petrivna

Supervisor: Dr. Med. Sci., Professor Grytsuliak B.V.

17. The features of cytohistological changes in blood and organ of haematopoiesis caused by tumors.

Student: Ivaskiv Khrystyna Vasylivna

Supervisor: PhD. Biol. Sci., senior teacher Dolyenko N.P.

18. Laboratory diagnostics of sputum at diseases respiratory organs.

Student: Kapustiak Ivanna Dmytrivna

Supervisor: Dr. Med. Sci., Professor Grytsuliak B.V.

19. Causes of development and manifestations of diseases of the appendages of skin and their laboratory diagnostics.

Student: Kohut Andriana Mykhailivna

Supervisor: PhD Biol. Sci., Assoc. Prof. Sluchik I.J.

20. Laboratory research of ejaculate in normal and pathology.

Student: Kozak Olha Mykhailivna

Supervisor: PhD. Biol. Sci., Assoc. Prof. Glodan O.J.

21. Acute and chronicle kidney diseases in people of different ages. Causes of development, manifestations and laboratory diagnostics.

Student: Kotsur Oksana Vasylivna

Supervisor: PhD Med. Sci., Assoc. Prof. Grytsuliak V.B.

22. Structural and functional features of changes in the testicle in conditions of hypothermia.

Student: Kravtsiv Marianna Vasylivna

Supervisor: Dr. Med. Sci., Professor Grytsuliak B.V.

23. Vaginal secretions in women in norm and pathology. Cytohistological and laboratory diagnostics.

Student: Kret Svitlana Yaroslavivna

Supervisor: PhD Biol. Sci., Assoc. Prof. Sluchik I.J.

24. Appendicitis. Causes of development, manifestations and cytological diagnostics in people of different ages.

Student: Lypchuk Nataliia Ihorivna

Supervisor: PhD Med. Sci., Assoc. Prof. Ivasiuk I. J.

25. Causes of development, manifestations and laboratory diagnostics of acute leukemia in people of different ages.

Student: Mandar Olesia Anatoliivna

Supervisor: PhD Med. Sci., Assoc. Prof. Grytsuliak V.B.

26. Causes and manifestations of the ovarian-menstrual disturbances in the female of different ages and their laboratory diagnostics.

Student: Martyniuk Khrystyna Mykhailivna

Supervisor: PhD Med. Sci., Assoc. Prof. Ivasiuk I. J.

27. Ways of infection, manifestations and laboratory diagnosis of gonorrhea.

Student: Ovcharchyn Nataliia Yaroslavivna

Supervisor: PhD Med. Sci., Assoc. Prof. Ivasiuk I. J.

28. The nature of structural and functional changes in the myocardium and blood vessels of the heart caused by age and their diagnostics.

Student: Pylypiv Liliia Mykhailivna

Supervisor: Dr. Med. Sci., Professor Grytsuliak B.V.

29. Urolithiasis. Causes of development, manifestations and laboratory diagnostics in people of different ages.

Student: Pohaidak Nataliia Vasylivna

Supervisor: PhD Med. Sci., Assoc. Prof. Grytsuliak V.B.

30. Diseases of mammary glands. Causes and manifestations in female of different ages and their diagnostics.

Student: Poiasyk Tetiana Volodymyrivna (Fedorniak)

Supervisor: PhD Med. Sci., Assoc. Prof. Ivasiuk I. J.

31. Manifestations and laboratory diagnostics of viral skin diseases in people of different ages.

Student: Prorok Oksana Romanivna

Supervisor: PhD. Biol. Sci., Assoc. Prof. Glodan O.J.

32. Diabetes. Causes of development, cytohistological and laboratory diagnostics.

Student: Rozhyk Tetiana Vasylivna

Supervisor: Dr. Med. Sci., Professor Grytsuliak B.V.

33. Structural and functional changes in human prostate gland in norm and pathology.

Student: Romaniuk Roksolana Romanivna

Supervisor: PhD. Biol. Sci., Assoc. Prof. Glodan O.J.

34. Aplastic and hemolytic anemia. Causes of development and laboratory diagnostics in people of different ages.

Student: Rudko Yuliia Volodymyrivna

Supervisor: PhD Biol. Sci., Assoc. Prof. Sluchik I.J.

35. Pyodermias. Causes of development, manifestations and laboratory diagnostics.

Student: Svintsitska Nelia Ihorivna

Supervisor: Dr. Med. Sci., Professor Grytsuliak B.V.

36. Pneumonia. Causes, manifestations and laboratory diagnostics in people of different ages.

Student: Skrypka Mariia Bohdanivna

Supervisor: PhD. Biol. Sci., Assoc. Prof. Glodan O.J.

37. Fungal diseases. Causes of development, manifestations and laboratory diagnostics.

Student: Smal Ivan Teodoziievych

Supervisor: Dr. Med. Sci., Professor Grytsuliak B.V.

38. Stomach diseases. Causes, manifestations and laboratory diagnostics in people of different ages.

Student: Starunska Iryna Petrivna

Supervisor: PhD. Biol. Sci., Assoc. Prof. Glodan O.J.

39. Allergic diseases of skin in people of different ages. Causes of development, manifestations and laboratory diagnostics.

Student: Stolova Myroslava Ivanivna

Supervisor: Dr. Med. Sci., Professor Grytsuliak B.V.

40. Small intestine diseases. Causes of development and manifestations in people of different ages and their laboratory diagnostics.

Student: Strypa Kateryna Ihorivna

Supervisor: PhD Med. Sci., Assoc. Prof. Ivasiuk I. J.

41. The nature of cytohistological changes in thyroid gland caused by age and their laboratory diagnostics.

Student: Suslyk Iryna Mykhailivna

Supervisor: PhD Med. Sci., Assoc. Prof. Ivasiuk I. J.

42. Ways of infection, manifestations and laboratory diagnosis of chlamydia infection.

Student: Udod Nelia Ivanivna

Supervisor: PhD Med. Sci., Assoc. Prof. Ivasiuk I. J.

43. The features of structural and functional changes in the colon in people of different ages and their laboratory diagnostics.

Student: Khrystuk Nataliia Zinoviivna

Supervisor: PhD Med. Sci., Assoc. Prof. Grytsuliak V.B.

44. Structural and functional changes in the heart in people of different ages caused by rheumatism and their laboratory diagnostics.

Student: Chekis Iryna Vasylivna

Supervisor: PhD. Biol. Sci., Assoc. Prof. Glodan O.J.

45. Helminthiasis. Causes of development, manifestations and laboratory diagnostics of diseases caused by roundworms.

Student: Shchudliuk Halyna Vasylivna

Supervisor: PhD Med. Sci., Assoc. Prof. Grytsuliak V.B.

46. Tuberculosis of lungs in people of mature age. The nature of structural and functional changes in lungs and their laboratory diagnostics.

Student: Yatsynovych Svitlana Volodymyrivna

Supervisor: PhD. Biol. Sci., senior teacher Dolyenko N.P.
